

MESON 2020

16th International Workshop on Meson Physics Kraków, Poland, June 4th-9th, 2020

POSTPONEMENT OF MESON 2020

Due to the fast spread of COVID-19, major restrictions to travel and assembly have been implemented in many places throughout the world. In this very difficult situation, the organizers of the MESON2020 conference have decided to postpone the conference. It is difficult to predict how quickly the situation will come back to some semblance of normality, but we do hope it will improve soon. Thus, we have decided to postpone the next MESON conference until the summer 2021.

We would like to thank very much all of you who sent us abstracts and the invited speakers who already confirmed their talks. This strong interest in the conference motivates us to go ahead with rescheduling the event for next year. At an appropriate time all speakers will be asked to reconfirm their participation and as needed to update their abstract. Details of MESON2021 will be distributed as soon as the general situation permits us to proceed with the detailed planning.

We wish that you, your families and friends stay healthy.

The MESON-OC

Catalina Curceanu, James Ritman, Piotr Salabura
Carlo Guaraldo, Stefan Leupold, Joachim Stroth, Antoni Szczurek
Damian Gil, Rafał Lalik
